Saturday the 19th of February saw eleven 10Rs at Terrigal for the cancelled running of the Kogarah Bay event (due to speed boat races adjacent to their course). A bright sunny day dawned with a light E/SE breeze which I might add is the worst at our sailing site as one minute you can be in front and the next left in the doldrums which tends to frustrate the best of them.

However, racing got underway shortly after 10am under the direction of Allan Bicknell and assisted by club member Sid Thomas who along with Phil Page arrived early to set up and also provided the lunches for the skippers. As usual Marilyn Russell was there to give her assistance.

Although a small fleet, there was some quality amongst us and the top places were shared around by various boats. Phil Page launched his new Diamond which was competitive right from the first race and will get better in time, Owen Jarvis, Allen Roberts and Fletch made the trip from Sydney as well as Funky Phil Lawson from Taree and Brian Longfield and Colin Andrews from Lake Macquarie. The rest of the fleet was made up of CCRYC members.

After a hard day in fluky conditions Fletch came up trumps followed by Owen and Phil in third place. Thanks to everyone who assisted in organising the event and for helping to make the day's sailing a success.

Sunday the 20th of February saw twelve 10Rs at Terrigal for the running of the Bob Shedden memorial handicap event. Again light fluky conditions faced the skippers which was hard to handle two days in a row, however, we battled on and there was some quite good racing.

Again we were led by Allan Bicknell with the course setting and handicap adjustments assisted by Sid Thomas. We had two new starters today being Arnold Grant from the Lake Macquarie club and Kevin Troy from the local club to boost the numbers to the even dozen.

As time went by the breeze slowly picked up and most skippers went to number 2 rigs. As the breeze became gusty some skippers moved to number 3 rigs. The breeze came straight down the lake which improved the racing out of site and once it settled down most skippers went back to their top rigs.

Racing continued on for the afternoon with a nice breeze and handicaps going up and down with 3 or 4 boats being on scratch and chasing the front runners which does make for good racing at times.

So to all the skippers who made the effort to support this event we say thanks and to the ones who did not we say please come next time.
