

Open Invitation to all NSW DF 65 sailors from RSYS RC.

Hi All,

The next Race Day is **Sunday July 9th starting at 1000** with briefing at 0945 at the Pond. In preparation for that event, we have organised two events to help the you enjoy the racing.

1. Assembly, Rigging and Tuning Workshop – Tuesday 4th July

- a. This is intended to help sailors of all skill levels to learn some tips and tricks from others on how to:
 - i. Assemble their boats,
 - ii. Rig the sails and running rigging,
 - iii. Protect the electricals
 - iv. Care and maintenance of the boats
 - v. Sail settings and tuning guide
 - vi. Understand the One Design Restricted Class rules
- b. The workshop will be held in the **Kirribilli Room at the RSYS at 1900 on Tuesday 4th July.**
- c. Bring your kit or assembled boat along. There will be some spare parts, tools, sprays and supplies to help you construct and protect and maintain your boat.
- d. I've received 7 acceptances so far, so please invite any prospective sailor along for the evening.
- e. I visited the Canberra regatta on the weekend and there are 2 boats for sale with the full set of sails. They are sending details soon, so please let me know if anyone is interested in buying a ready to race boat.

2. Practice Day – Sunday 2nd July

- a. This is an extra practice day as there has been a demand for more racing.
- b. It will follow the same arrangements as last time – initial briefing at 0945 and short windward/leeward one lap races with 60second start sequences, so we can get as much starting practice as possible.
- c. It was great fun and attracted several observers who have gone on to order yachts.
- d. Prospective sailors are welcome and boats will be available to try out.

We hope as many of you can make it.

Kind regards,

Phil Burgess
