Report.
Unfortunately a number of skippers could not make the day, there being only seven boats to hit the water.
However the 10s enjoyed their day but unfortunately Gordon James had no RM opposition with which to content. He ended up with the best score of the day.
Les Brown got top marks for the day and has his new boat performing well. The others were never far behind with IOM skipper Ian Thompson getting on the pace with his 10R.
Phil Dunne also has a new boat and was gradually finding the setting for his new sails.
The next and final sail day for the year will be on the 18th. November
2007 when the George Manders trophy will be presented.
